

Atlantix Partners is a premier finance, accounting, and technology solutions provider to public and private companies. Working at the intersection of business and technology, our professionals help companies increase reporting efficiencies, find their edge, boost performance, and drive verifiable deltas in enterprise value.

Founded over 20 years ago, we attribute our success to staying ahead of emerging trends by finding tech-enabled solutions to alleviate the challenges of thirty-year-old spreadsheets. We provide current solutions to keeping up with today's fast paced information exchange, leaving many in a data paradox.

Our internally developed **EdgeVu™** platform turns data struggles into a powerful information edge, enabled with speed and accuracy, easing resource dependency.

Atlantix Partners and Marshall & Stevens work together to provide an integrated solution to transaction preparation, execution, and reporting.
